Consortium of Forensic Science Organizations (CFSO)

- AAFS
- ASCLD
- IAI
- NAME
- SOFT/ABFT

The mission of the CFSO is to speak with a single forensic science voice in matters of mutual interest to its member organizations, to influence public policy at the national level, and to make a compelling case for greater federal funding for public forensic science service providers and public forensic medical service providers. The primary focus of the CFSO is Federal, state, county, and local policymakers, as well as the United States Congress.

CFSO Strategic Plan 2022

GOALS

- A. To continue to be recognized as the primary organization representing the forensic community to policy makers
- B. To increase resources needed for the forensic science enterprise
- C. To advance the validity, reliability, and reproducibility of forensic science and forensic medicine practices
- D. To develop an ongoing federal forensic science research strategy
- E. To be a single voice to policy makers on behalf of the forensic science community

CFSO Strategic Plan 2022

OBJECTIVES

- A. To meet the current and expected need for qualified personnel for the forensic science community
- B. To fund the ongoing professional development of forensic practitioners and forensic support services
- C. To establish and maintain validation and performance verification programs and collaboratives
- D. To improve and expand forensic information technology systems, infrastructure, and interoperability
- E. To simplify the grant application and management process, and develop collaborative applicant resources

CFSO Strategic Plan 2022

STRATEGY

- A. To maintain a collaborative relationship among CFSO organizations to advance their collective objectives **(CFSO Board Meetings Bimonthly, Listening Sessions, President's Council)**
- B. To maintain a productive relationship with Congressional and other governmental entities
- C. To collaborate with and support crime victim organizations and other stakeholders on issues of mutual interest
- D. To support forensic science education for officers of the court, the judiciary, and law enforcement.

CFSO Strategic Plan 2022

CONTINUING AGENDA

- A. To ascertain the existing and projected needs of the forensic science community
- B. To monitor and influence legislation that may impact forensic science
- C. To collaborate in developing legislative initiatives with member organizations and stakeholders
- D. To propose and promote legislation advancing forensic science
- E. To author educational and policy positions regarding forensic science
- F. To provide public communication through an informative website, newsletter, and other means

Fentanyl Bill

This bill extends until October 22, 2021, the temporary scheduling order issued by the Drug Enforcement Administration to place fentanyl-related substances in schedule I of the Controlled Substances Act. The bill was signed into law on May 4, 2021.

The previous order (PL 116-114) extended the last scheduling and also requested a GAO report to look at the matter. Titled "Synthetic Opioids, Considerations for the Class-Wide Scheduling of Fentanyl-Related Substances" (attached). The GAO report was sent to Congress in April 2021.

The GAO report provides analyzed documents, data and statements for Federal, state and local stakeholders. It focused on the "effects related to drug classification, research, and federal law enforcement and effects from the classification of similar substances."

FY22 Budget

The President has released the proposed FY22 budget detail. It is a budget with good news for the forensic science community as the funding is more robust. Please note that there is also new funding for regional Sexual Assault Training Facilities. Below you will find detail of that budget and we will keep you apprised of any activity as these proposed requests move through the congressional approval process. Of note, CDC has also added a significant amount of funding regarding sexual assault.
