ASCLD Update – 2025/2026

Consortium of Forensic Science Organizations (CFSO)

- AAFS
- ASCLD
- IACME
- IAI
- NAME
- SOFT

The mission of the CFSO is to **speak with a single forensic science voice** on behalf of its member organizations of matters of mutual interest regarding forensic science, to influence public policy at the national level, and to make a compelling case for greater federal funding for public crime laboratories and medical examiner and coroner offices. The primary focus of the CFSO is national, state, and local policymakers, as well as the United States Congress.

CFSO Strategic Plan 2026

GOALS

- A. To continue to be recognized as the **primary organization** representing the forensic community to policy makers
- B. To **increase resources** needed for the forensic science enterprise
- C. To **advance the validity, reliability, and reproducibility** of forensic science and forensic medicine practices
- D. To **develop an ongoing federal forensic science research strategy**
- E. **To be a single voice to policy makers** on behalf of the forensic science community

CFSO Strategic Plan 2026

OBJECTIVES

- A. To meet the current and expected need for **qualified personnel** for the forensic science community
- B. To fund the ongoing **professional development** of forensic practitioners and forensic support services
- C. To establish and maintain **validation and performance verification programs and collaboratives**
- D. To improve and expand forensic **information technology systems, infrastructure, and interoperability**
- E. To **simplify the grant application and management process**, and develop collaborative applicant resources

CFSO Strategic Plan 2025

STRATEGY

- A. To maintain a collaborative relationship among CFSO organizations to advance their collective objectives **(CFSO Board Meetings Bimonthly, Listening Sessions, President's Council)**
- B. To maintain a productive relationship with Congressional and other governmental entities
- C. To collaborate with and support crime victim organizations and other stakeholders on issues of mutual interest
- D. To support forensic science education for officers of the court, the judiciary, and law enforcement.

A wide-angle photograph of the U.S. Capitol building in Washington, D.C. The building is a large, white, neoclassical structure with a prominent central dome topped by a statue. It is surrounded by green lawns and trees. The sky is blue with scattered white clouds. A dark, rounded rectangular overlay is positioned in the center of the image, containing the text.

Legislative Budget FY27 Funding

FEDERAL BUDGET STATUS

- **Big Beautiful Bill: Imminent release of grant**
- **FY26 budget**
 - **Commerce, Justice, Science signed into law 1/23/2026**
 - **HHS (CDC) signed into law 2/2026**
- **FY27 budget**
 - **House - CJS Appropriations (DOJ/NIST)**
 - **House – HHS Appropriations (CDC, OD2A grants)**
 - **Senate– expected to start moving in July 2026**

BIG BEAUTIFUL BILL

"Bridging Immigration-related Deficits Experienced Nationwide (BIDEN) Reimbursement Fund"

([Pub. L. 119–21, title X, §100055, July 4, 2025, 139 Stat. 392 .](#))

\$3.5b in grants to eligible **States, State agencies, and units of local government** (will be in tranches)

Collection and analysis of law enforcement investigative information within the United States to counter gang or other criminal activity.

(3) Investigating and prosecuting-

(A) crimes committed by aliens within the United States; AND (B) drug and human trafficking crimes committed within the United States.

CFSO has been in discussions with DAG, OJP and Congress to ensure inclusion of forensics in the funding

CFSO working to expand the H.R.8564, Local Law Enforcement Support Act of 2026" to ensure forensic priorities are highlighted and not just the few technologies mentioned: digital forensics, NIBIN, Rapid DNA as defined in law

FY27 FEDERAL BUDGET

FY27 FEDERAL BUDGET

DOJ FY27 LANGUAGE

DISCUSSION

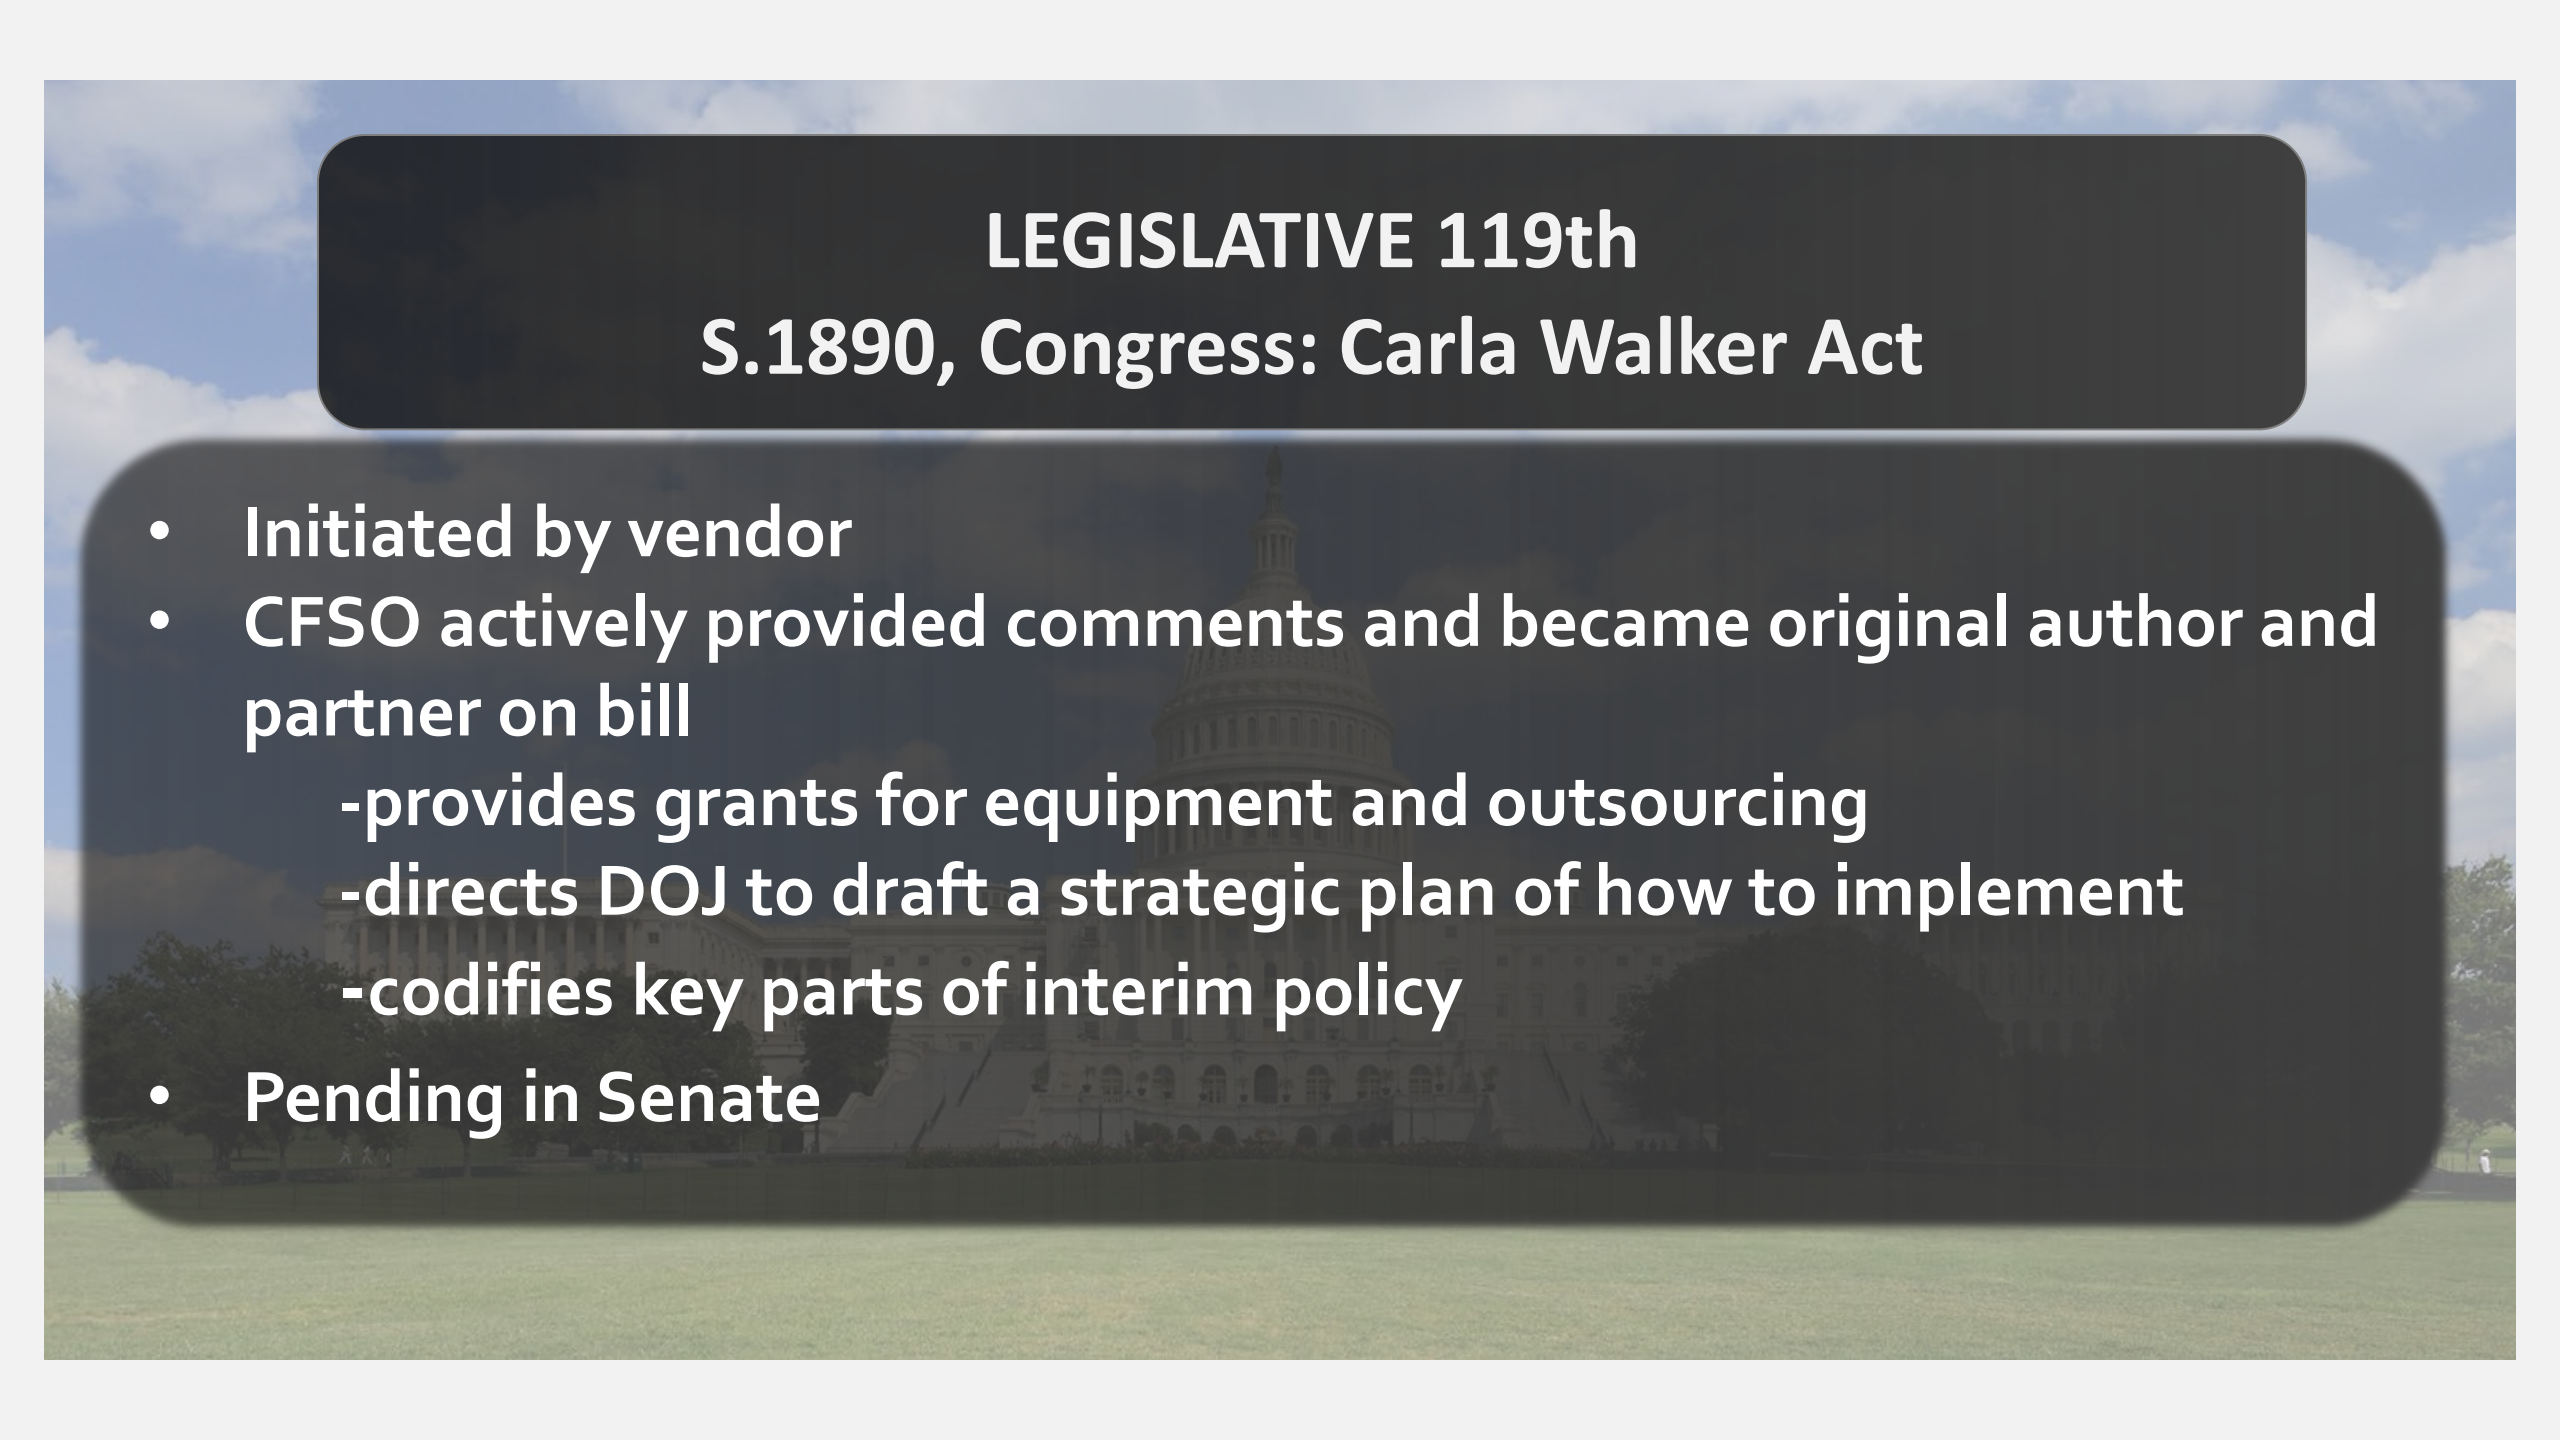

CFSO Specific FY26 Language/ Implementation with DOJ/NIST

Interoperability of Automated Biometric Identification Systems- The Committee is concerned about the lack of interoperability among various automated biometric identification systems, and notes that unlike DNA there is no single mechanism to search for latent prints across jurisdictions. The Committee understands that NIST and the National Institute of Justice (NIJ) have spent a significant amount of time working to address this issue, including the production of the standards and guidance necessary to support the development of interoperable systems, but the problem remains. Not later than 60 days after the enactment of this Act, **the Committee directs NIJ, in coordination with NIST, to provide an update on work done to date to resolve this matter, the barriers that remain, and a path forward.**

CFSO NIST discussion

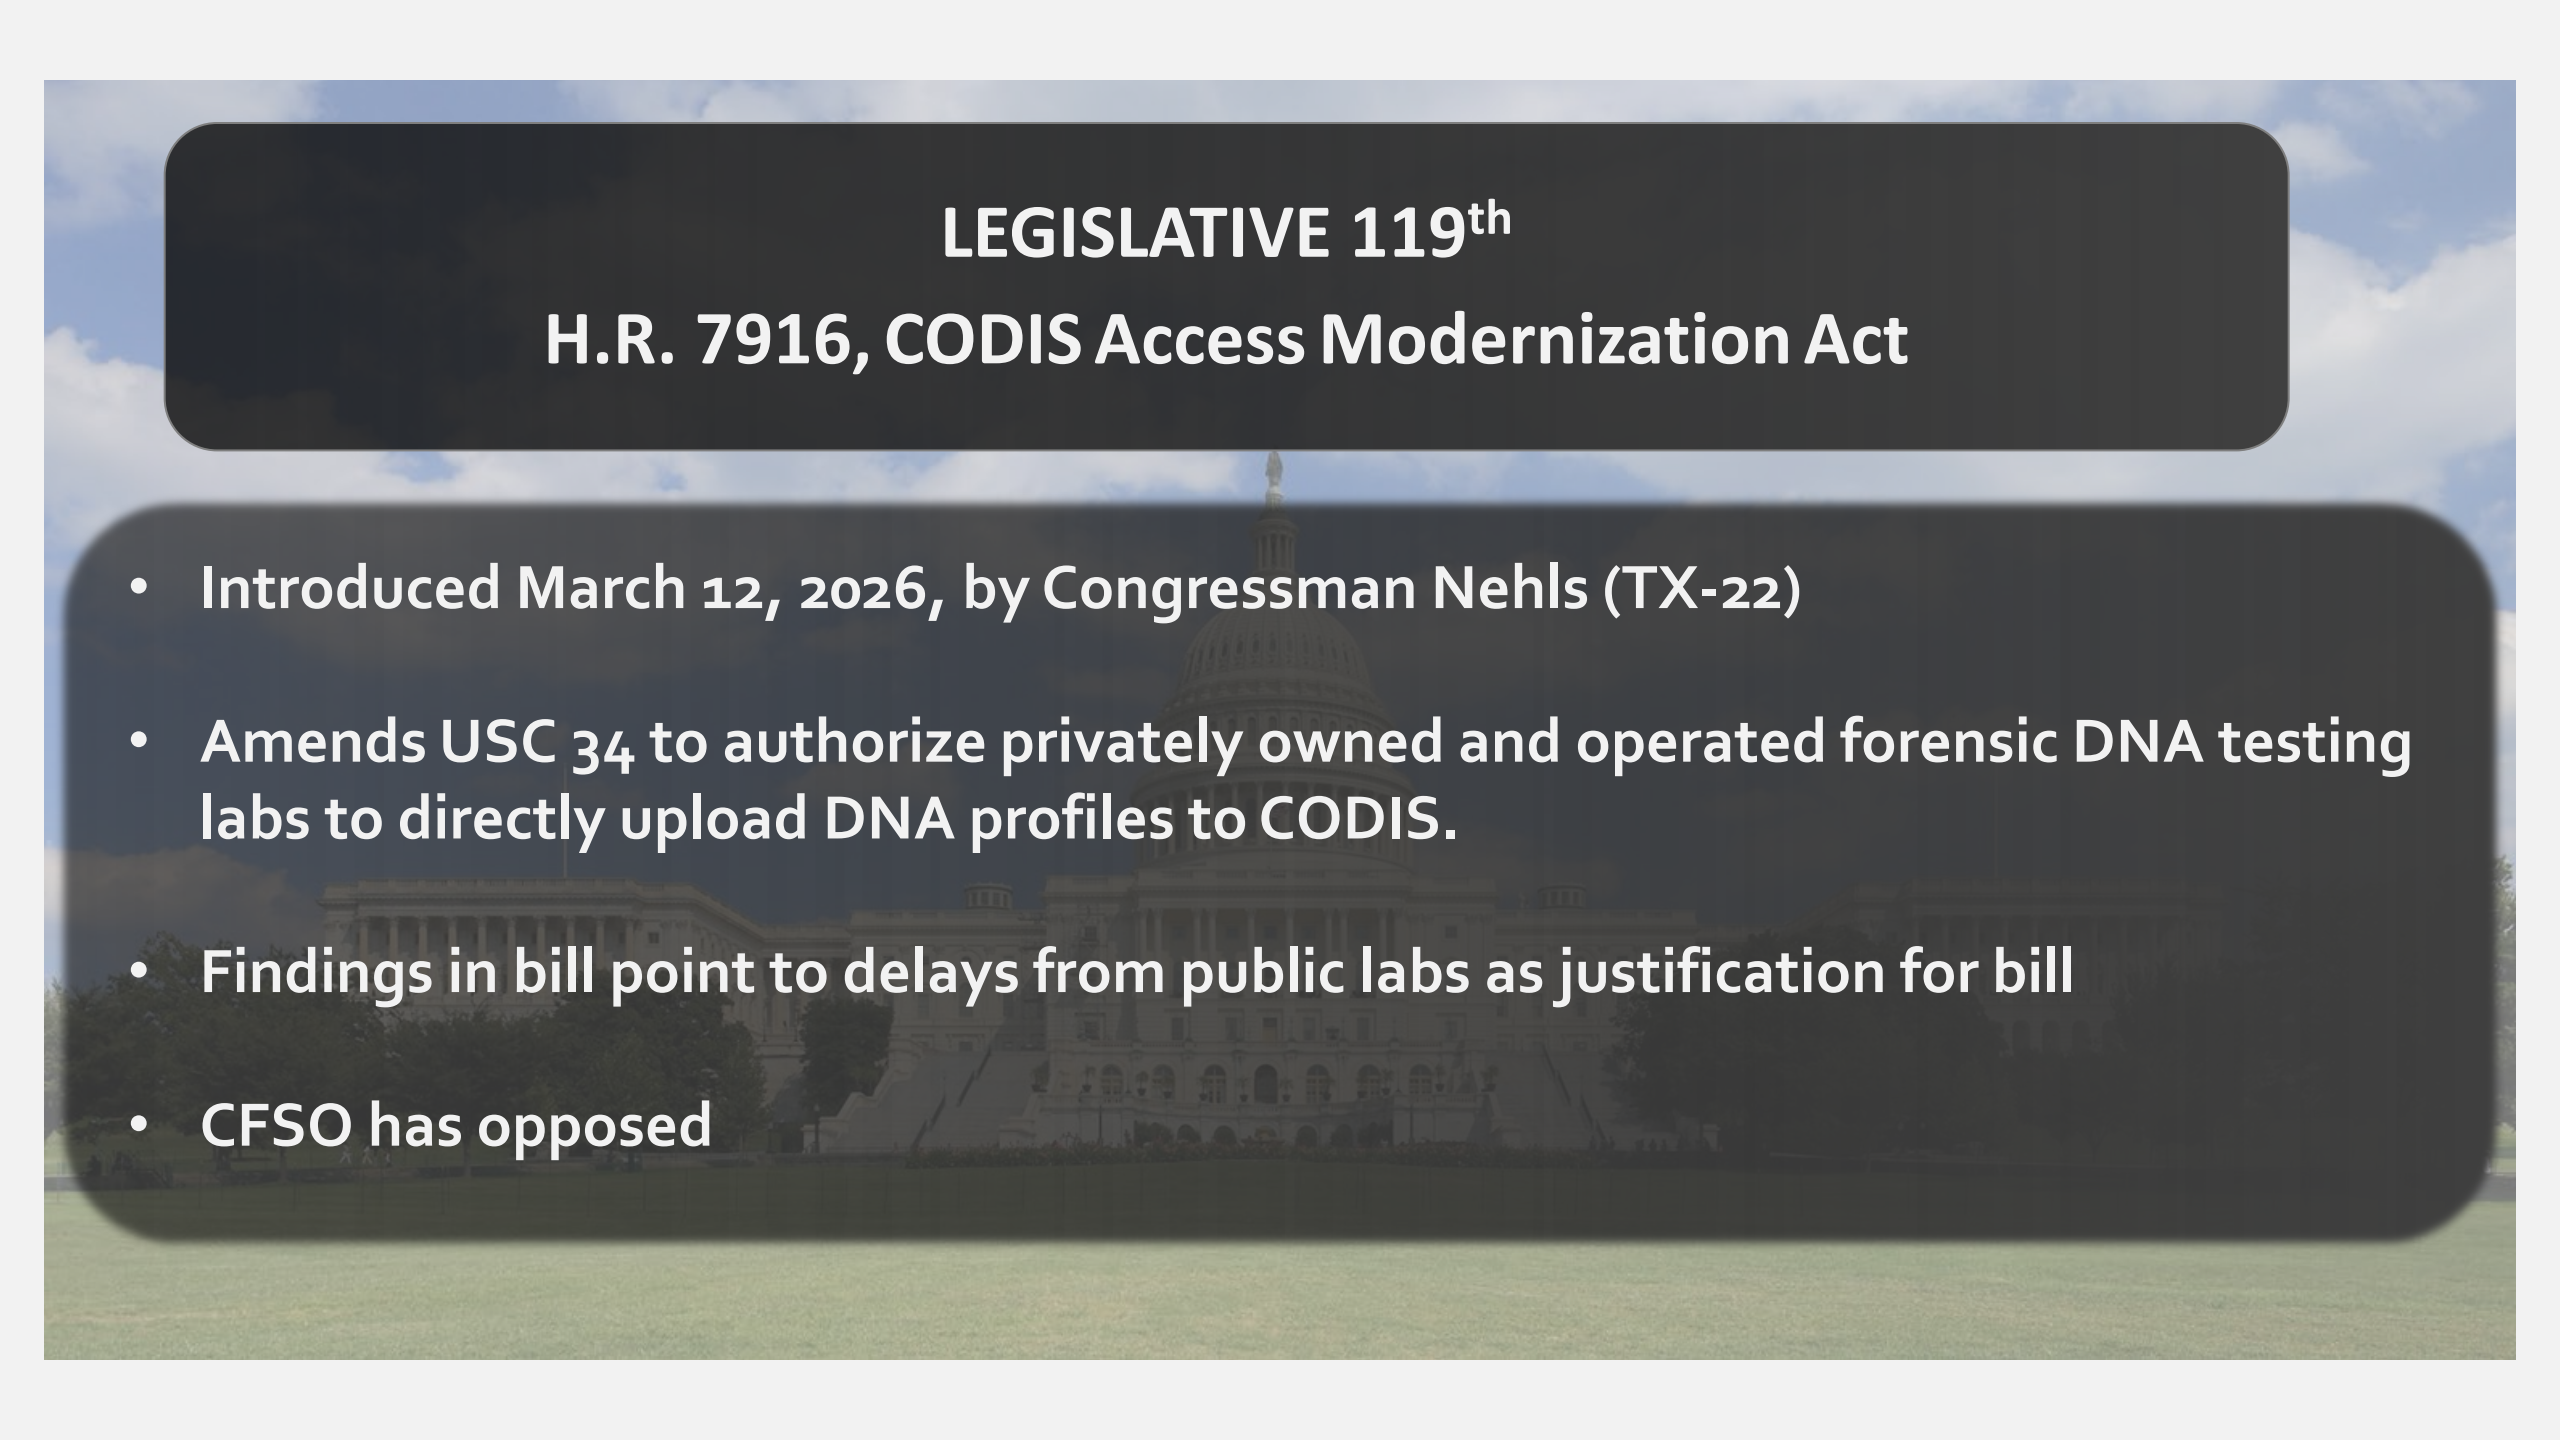

CFSO DOJ discussion

The background of the slide is a photograph of the United States Capitol building in Washington, D.C. The building is a large, white, neoclassical structure with a prominent dome. It is surrounded by green lawns and trees. The sky is blue with some white clouds. The text is overlaid on a dark, semi-transparent background.

LEGISLATIVE 119th

S.1890, Congress: Carla Walker Act

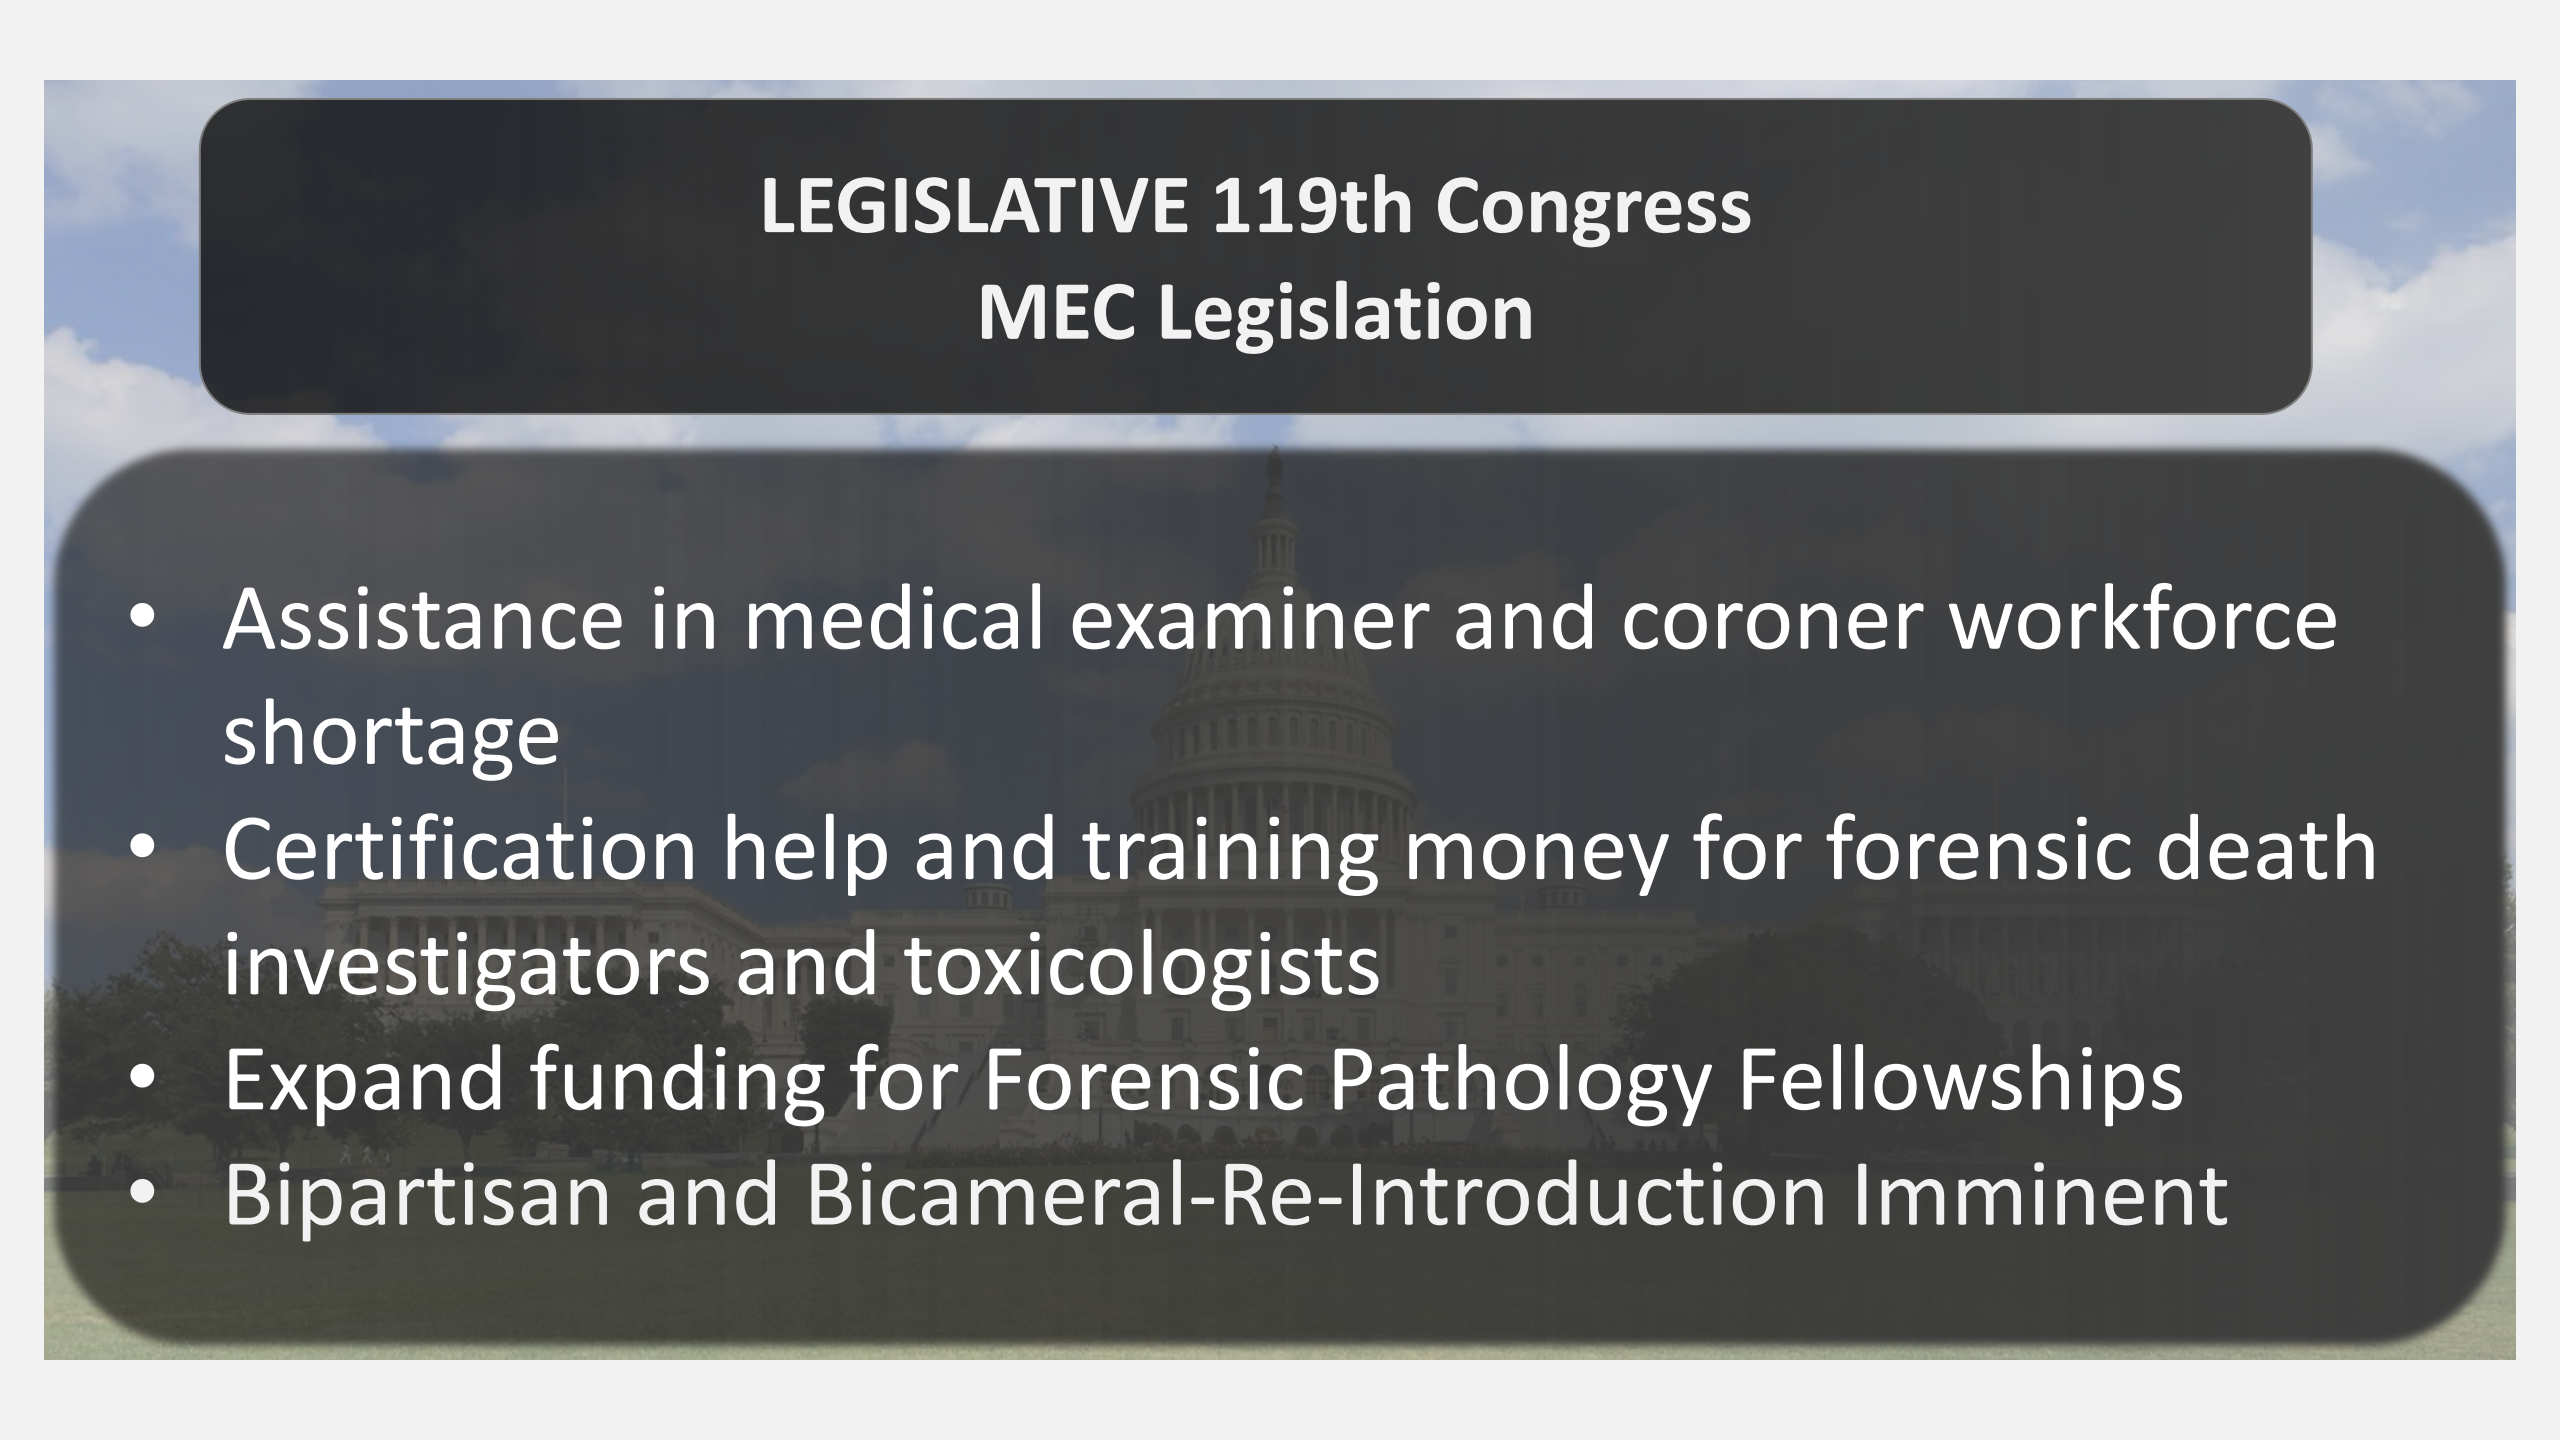

- Initiated by vendor
- CFSO actively provided comments and became original author and partner on bill
 - provides grants for equipment and outsourcing
 - directs DOJ to draft a strategic plan of how to implement
 - codifies key parts of interim policy
- Pending in Senate

LEGISLATIVE 119th

H.R. 7916, CODIS Access Modernization Act

- Introduced March 12, 2026, by Congressman Nehls (TX-22)
- Amends USC 34 to authorize privately owned and operated forensic DNA testing labs to directly upload DNA profiles to CODIS.
- Findings in bill point to delays from public labs as justification for bill
- CFSO has opposed

LEGISLATIVE 119th Congress MEC Legislation

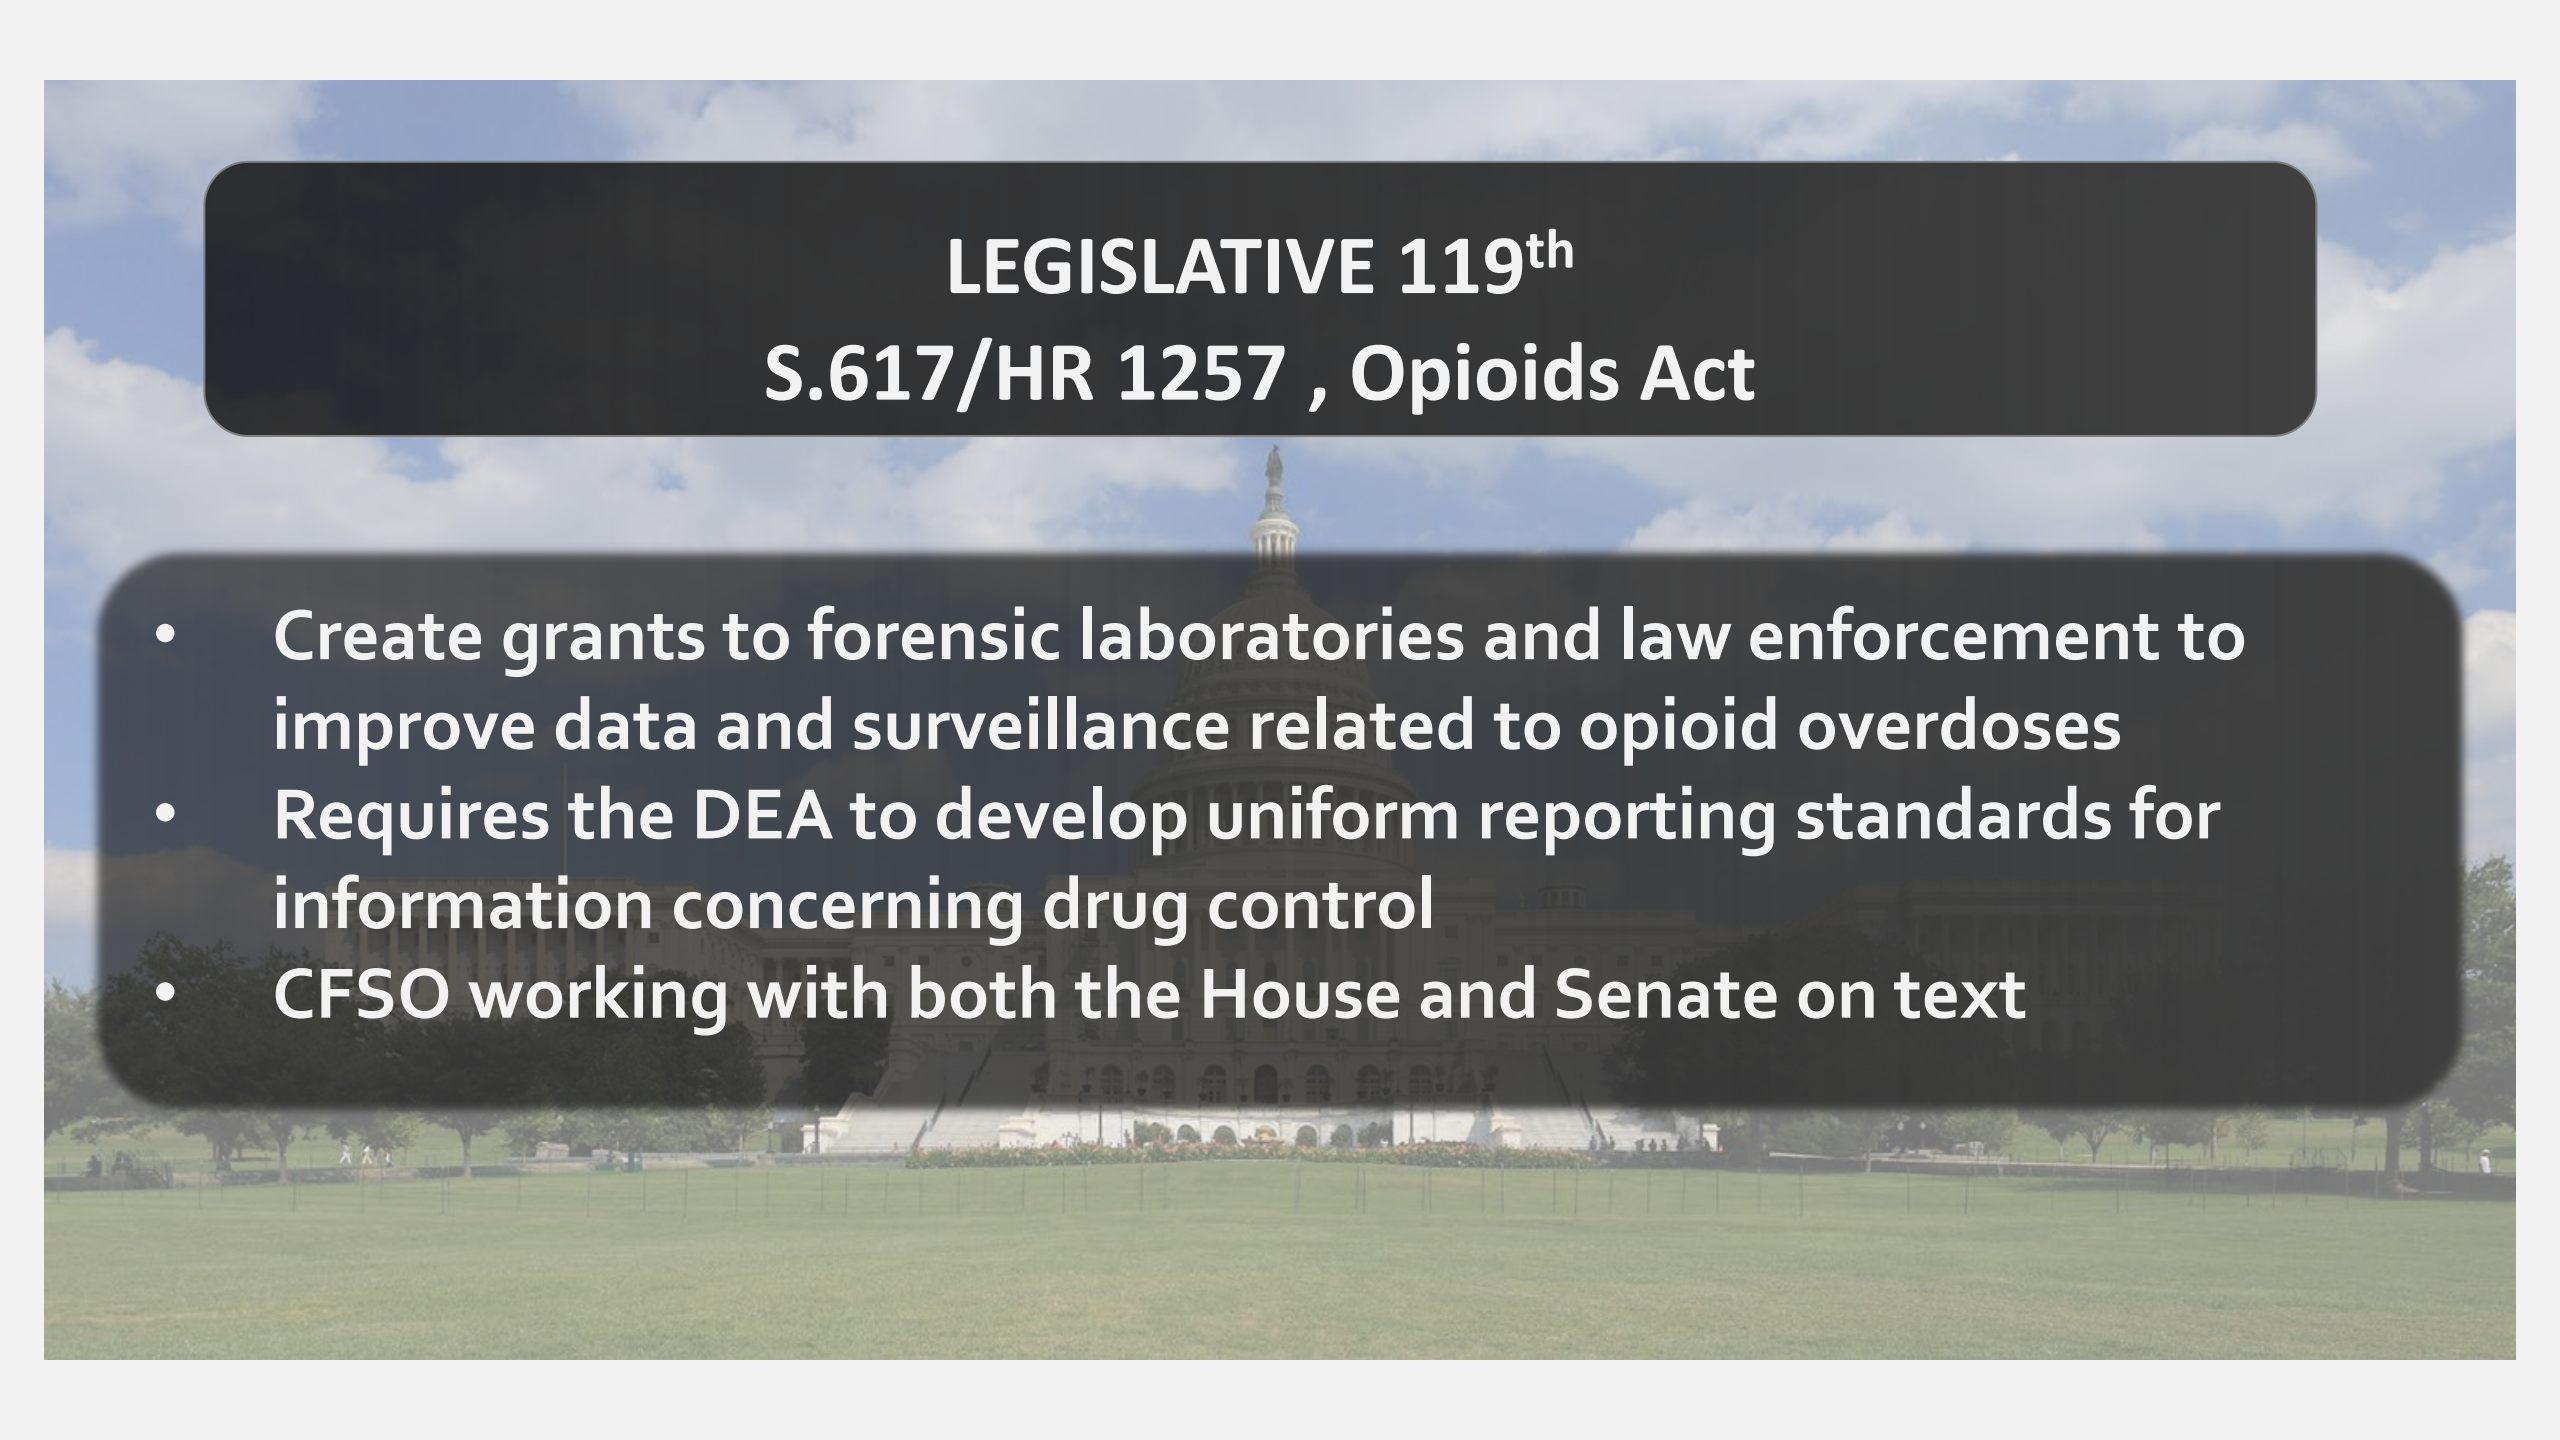

- Assistance in medical examiner and coroner workforce shortage
- Certification help and training money for forensic death investigators and toxicologists
- Expand funding for Forensic Pathology Fellowships
- Bipartisan and Bicameral-Re-Introduction Imminent

LEGISLATIVE 119th Congress: HALT Act (Halt All Lethal Trafficking of Fentanyl)

Became Law---July 16, 2025

Public Law 119-26

- Permanently places fentanyl related substances as a class in Schedule I of the Controlled Substances Act
- Offenses involving fentanyl-related substances are triggered by the same quantity of the thresholds and the same penalties as offenses involving fentanyl analogues
- Established new alternative registration process for certain schedule I research
- Permits single registration for related research sites in certain circumstances
- Waives the requirement for a new inspection in certain situations
- Allows a registered researcher to perform certain manufacturing activities with small quantities without obtaining a manufacturing registration

LEGISLATIVE 119th

S.617/HR 1257 , Opioids Act

- **Create grants to forensic laboratories and law enforcement to improve data and surveillance related to opioid overdoses**
- **Requires the DEA to develop uniform reporting standards for information concerning drug control**
- **CFSO working with both the House and Senate on text**

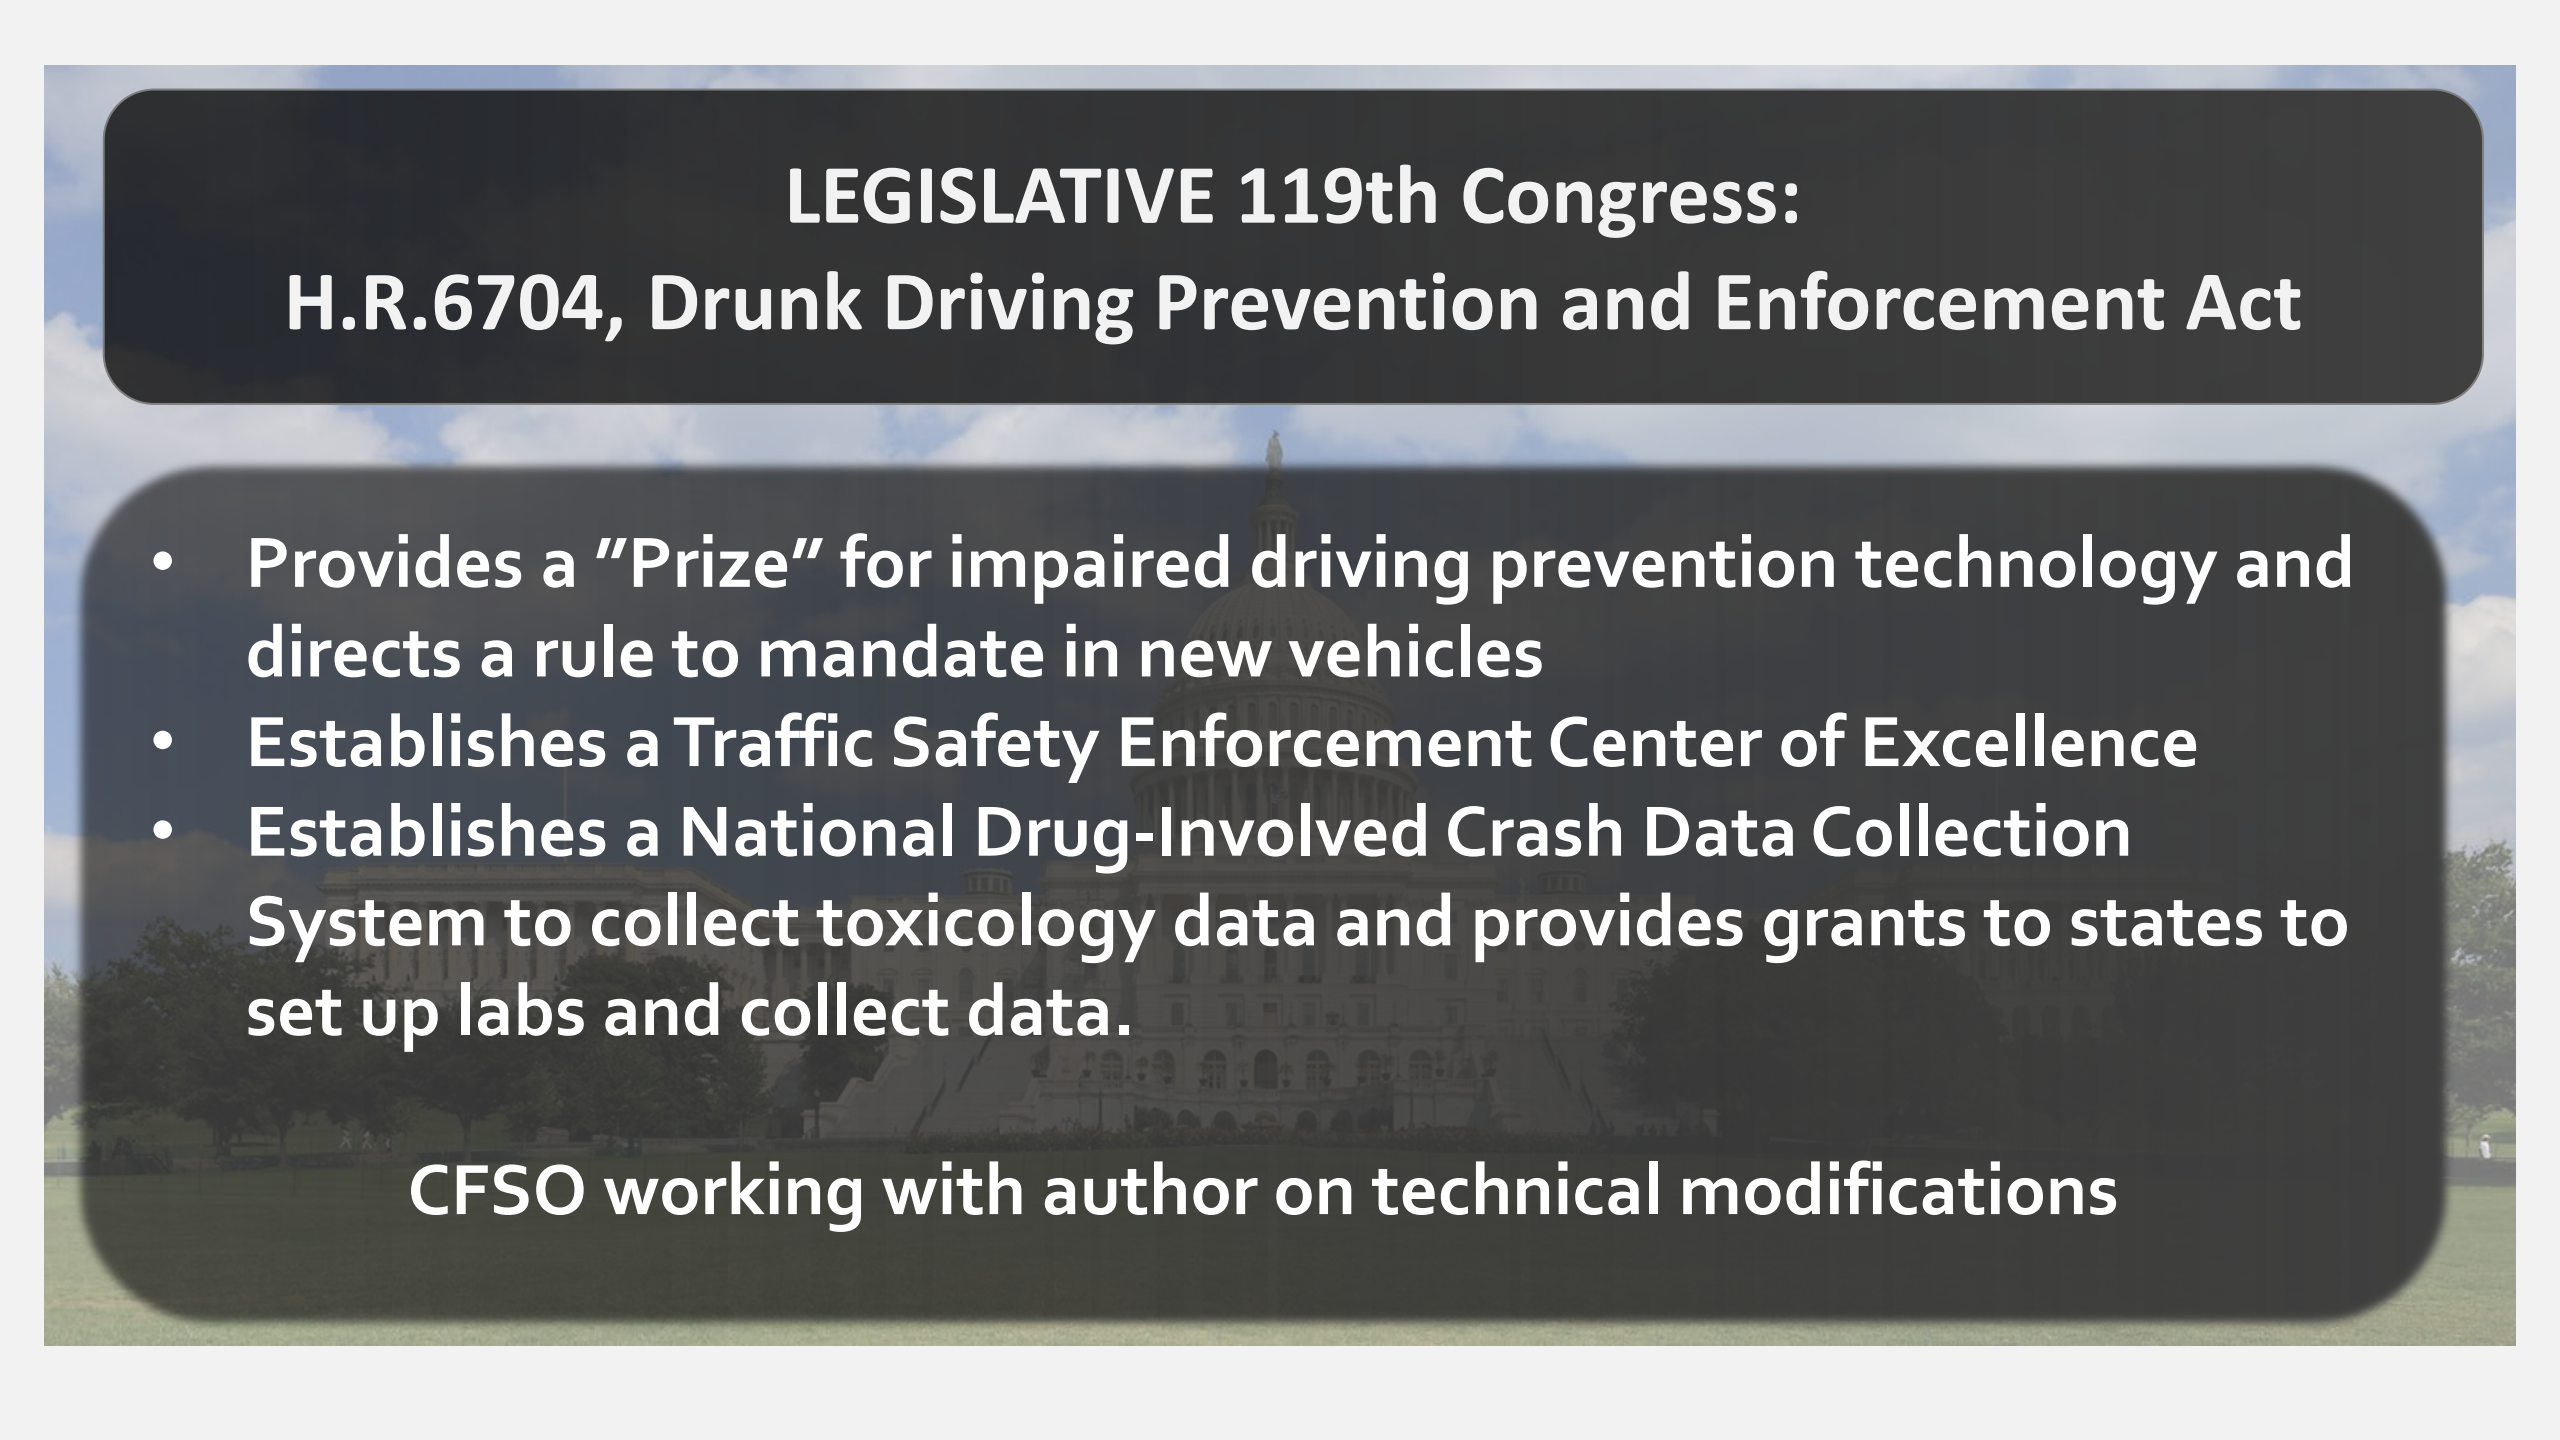

LEGISLATIVE 119th Congress: Other Opioid Bills

191 Bills regarding Opioid Use Introduced

- Nitazene Control Act-amends the Controlled Substance Act to permanently schedule Nitazene
- CARA reauthorization- Reauthorizes DOJ CARA grants

CFSO Working with authors on bill edits

NOTE: new GAO report, February 26, "Street Drug Analysis" recommends increase resources, standardized reporting, and increased information sharing.

The background of the slide is a photograph of the United States Capitol building in Washington, D.C., viewed from a distance across a green lawn. The building's iconic dome and neoclassical architecture are visible under a blue sky with scattered white clouds. The text is overlaid on this image within dark, rounded rectangular boxes.

LEGISLATIVE 119th Congress:

H.R.6704, Drunk Driving Prevention and Enforcement Act

- **Provides a “Prize” for impaired driving prevention technology and directs a rule to mandate in new vehicles**
- **Establishes a Traffic Safety Enforcement Center of Excellence**
- **Establishes a National Drug-Involved Crash Data Collection System to collect toxicology data and provides grants to states to set up labs and collect data.**

CFSO working with author on technical modifications

LEGISLATIVE 119th Congress
S.R.395, Forensic ScienceWeek

Forensic Science Week Designation

- Senate Resolution 395 (2026)
- National Forensic Science Week 2025 was recognized from September 14–20, 2025, to honor the professionals, labs, and technologies that support the criminal justice system.

CFSO Member Priority List FY27

From Member Organizations

- Fully Fund the Standards Development Organization
**Note: grant requires re-authorization in FY26 also
- Support funding for DOJ Grants: Coverdell, Debbie Smith, NamUs, MEC grants, SAKI, R&D funding and other forensic related funding.
- Support funding for CDC Grants: OD2A, National Violent Death Reporting System (NVDRS), SUDORS, and Data Modernization with a specific carve out for MECs

CFSO FY28 Budget Prep-July/August

- **“Listening Sessions” with Member Organizations**
- **Development of agency specific “White Papers” based on needs of Members expressed during listening sessions**
- **Meetings with Federal Agencies to present needs-2026**
- **Rack and Stack requests and bring to key Congressional Policymakers**
- **Congress and modify when budget delivered**

What are your concerns in the budget or with policy matters?

Grant Awareness

2025

- Capacity Enhancement and Backlog Reduction (CEBR)
- Paul Coverdell Forensic Enhancement Grants
- Strengthening the Medical Examiner and Coroner System
- Posted September 11, 2025—Closed October 29, 2025—Reopened due to government shutdown---Closed again
- Current estimated 2025 grant awards
 - MEC/CEBR April 2026
 - Coverdell May 2026?? (issue with competitive grants and amounts)
- 2026 Funding provision of 90-day solicitations??

Grant Awareness

2025

- Missing and Unidentified Humans Remains Program (MUHR)
- Sexual Assault Kit Initiative (SAKI)
- Prosecuting Cold Cases using DNA
- Postconviction Testing of DNA Evidence
- Posted September 17, 2025—Closed November 3, 2025
- Appendix 1—Chief Executive Officer Declaration
(2) I have carefully reviewed (or have received pertinent legal advice concerning) 8 U.S.C. §§ 1373(a) & (b) and 1644, including the prohibitions on certain actions by State and local government entities, agencies, and officials regarding information on citizenship and immigration status.

COVERDELL ADVOCACY

West Virginia University data from Project Foresight lists growth in national forensic backlogs from 2017-2023 of up to 13%. Turnaround times in the United States forensic service providers from 2017- 2023 have increased by up to **40%**, including 10% in DNA casework, 19% in drug chemistry, 18% in toxicology, and 18% in firearms analysis. Specifically, the backlog in blood alcohol over the period from 2017-2023 was up 100%, crime scene was up 270%, controlled substances was up 23%, DNA was up 42%, forensic pathology was up 139%, and post-mortem toxicology was up 38%. In addition, States recently surveyed by our organization provided data to support that firearms case submissions increased between 18% and 154% in the last few years. During the same timeframe, the turnaround times (time from intake into the lab to forensic report issued) increased 954% in blood alcohol, 25% in crime scene, 232% in controlled substances, 88% in DNA, and 246% in post-mortem toxicology. However, funding has not increased to address these issues.

Agency Communications

Administrative Items

- ONDCP Administration Strategy
- HHS Letter on Attestation for Health Care Records
- Federal agency RIF and Reorganization Plans
- NIST communication on forensics staff and program cuts
- DOJ sanctuary jurisdiction information updates
- Advocacy on grant freezes and information updates

Monitoring

- Supreme Court Decision: (January 2024 Newsletter)
 - Jason Smith v. Arizona – Confrontation Clause
 - Documents on CFSO Website for Court Decisions
- Federal Grant Funding Releases (2025 & 2026)
- Rapid DNA Implementation and Funding
- Data exchange and data network development (NIEMOpen)
- CODIS access by private laboratories
- Return of FTCoe resources to public websites
- NIST RADAR Program
- NIST AI Program
- BJS Census and Forensic Science Data Programs
- State legislative encroachment on FP (e.g. Excited delirium)

National Forensic Science Week:

- National Forensic Science Educator of the Year
- Five NIST National Webinar Presentations on Forensic Science
Presentations are archived on CFSO website
- National Proclamation for 2025
- Website Links Updated
- More events and proclamations than ever
- Committee revamped and meetings for 2026 starting soon

The award card is light blue with a grid pattern on the right side. At the top left is the CFSO logo, which includes a magnifying glass over a building icon and the text "CFSO Consortium of Forensic Science Organizations". Below the logo is a decorative horizontal line of slanted bars. The text "CFSO 2025" is prominently displayed. Underneath, it reads "National High School Forensic Science Educator of the Year". A portrait of Scott Rubins, a man with short dark hair wearing a blue checkered shirt, is centered on the card. Below the photo, the name "SCOTT RUBINS" is printed in bold. At the bottom, his affiliation "New Rochelle High School New Rochelle, NY" is listed. The card is decorated with several starburst graphics.

Attention Forensic Science Practitioner

Encourage your Member of Congress to join the Congressional Forensic Science Caucus

The 119th Congress (2025-2027) has started, and there has been significant movement on budgets. Almost 20% of the Members of Congress are new and don't have the background or in some cases the significance of forensics within our justice system. To help, Congressman Guest (R-MS) and Congressman Cleaver (D-MO) have again created a "Congressional Forensic Science Caucus". Below is their description of the caucus and its mission:

The Congressional Forensic Science Caucus is an informal Congressional Member of Congress group dedicated to issues related for forensic science and education other Members on this subject. The purpose of this bipartisan caucus is to educate Members of Congress on matters critical to the criminal justice system that pertain to forensics science and to advocate for legislation that ensures the sciences' continuous advancement, wide availability to investigators and litigants, and compliance with the highest standards of quality assurance. Forensic science capabilities are changing rapidly, and Congress is often presented with legislation that addresses, for expel, the needs for further research, analyst training, and the implementation of new instrumentation and standards for its use. Our caucus serves as a forum to facilitate important information about these relevant topics and work to advance these significant issues."
